

Customer Requirements Compatibility Checklist

If you are purchasing a new vehicle, it is important that you consider all aspects of the vehicles operation and whether you will need assistance with any aspects of driving or access. The below questionnaire is designed to help you think of the different aspects to consider when looking at a new vehicle or getting adaptations.

Q1. Do you need assistance in driving a vehicle?

Yes No

Q2. Do you need assistance getting in/out of a vehicle?

Yes No

Q3. Do you need assistance loading a wheelchair/scooter into a vehicle?

Yes No

If no to all the above, please skip straight to Q5.

Q4. Do you know which adaptations you require?

Yes No

Please look at the adaptation options or call us to discuss your requirements.

Q5. Can you operate all the vehicles standard functions?

If no, please consider if there is a vehicle specification option to assist (e.g. electric handbrake), if there is an adaptation to assist or if a different vehicle would be more suitable for your requirements.

Entry and Exit of the Vehicle Seat Adjustment Controls Handbrake Operation Gearstick Operation Secondary Control Functions *(e.g. Indicators, Cruise Control)*Boot Opening/Closure Steering Controls Comfortable Seating Position

Please use this space to list any required adaptations or key information for your reference:
