# Introducing the LODGESONS WIRELESS KEYPAD CONTROL

R210/R213 with steering ball grip

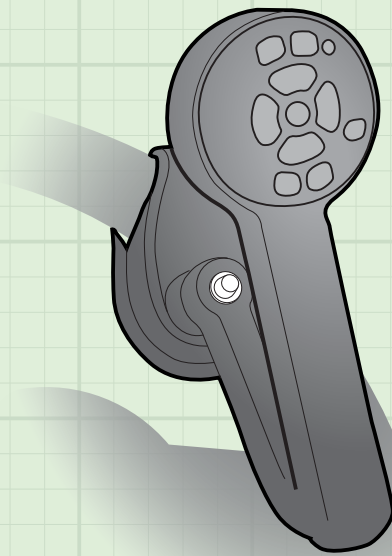

R207 with  
steering ball  
grip

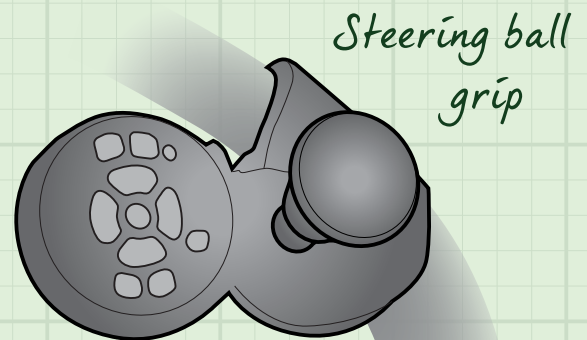

Driving Excellence

**Jeff Gosling**  
Hand Controls Ltd.

Designed for drivers with limited upper body movement, particularly those who only have use of one hand. These units allow secondary functions such as indicators, headlights, horn and windscreen wipers to be operated by a wireless keypad control incorporated into a steering aid mounted on the steering wheel.

*Lollipop grip*

*Steering ball grip*

### Functions available\*

R207 unit:
